Executive summary of report on factual findings in connection with the inventory count of silver, gold, platinum and palladium bars and coins, and nickel and cobalt drums listed in the parcel ownership list as at 31 December 2021

Dear Sirs:

We are pleased to present you with the executive summary of the report on factual findings relating to the agreed upon procedures in connection with the inventory count of silver, gold, platinum and palladium bars and coins, and nickel and cobalt drums listed in the parcel ownership list as at 31 December 2021 provided by The Safe House SG Pte. Ltd. and C.Steinweg Warehousing (F.E) Pte. Ltd. (the "Schedule").

Our report on this engagement which is undertaken in accordance with the Singapore Standard on Related Services SSRS 4400 (Revised) *Agreed-upon Procedures Engagements* was issued to the Board of Directors on 15 March 2022.

Procedures and Results

The procedures were performed solely to assist you in the inventory count of silver, gold, platinum and palladium bars and coins, stored at The Safe House SG Pte. Ltd., 6 Changi South Street 3 Singapore 486128, and nickel and cobalt drums stored at C.Steinweg Warehousing (F.E.) Pte. Ltd., 28 Jurong Port Road Singapore 619113, as listed in the Schedule. The procedures performed are summarised as follows:

1. For a random sample of 10% of the total parcels of gold, platinum and palladium bars and coins listed in the Schedule, check that these parcels are stored in a UL Class 2 Lightweight Modular Vault, individually sealed in uniquely identifiable level 4 tamper evident parcel bags and kept in Class II safe deposit boxes locked with unique mechanical keys and labelled with unique alphanumeric identifiers. For gold bars weighing 1 kilogram ("kg") or above and silver bars weighing 5kg or above, they may not be sealed in the tamper evidence parcel bags;
2. For a random sample of 10% of the total parcels of silver bars and coins listed in the Schedule, check that these parcels are stored in a vault equipped with UL Class 1 2.5 tons Gladiator Door and placed in heavy duty pallet wire cages. For certain selected silver bars that are weighing at 15kg as well as LBMA Good Delivery Bars, they may not be stored in the heavy-duty pallet wire cages and are stacked in pallets within the vault equipped with UL Class 1 2.5 tons Gladiator Door;
3. For a random sample of 10% of the total parcels of silver, gold, platinum and palladium bars and coins listed in the Schedule, check that all containers used to keep gold, platinum and palladium parcels are numbered and secured with a lock key, and that all containers and cages used to keep silver parcels are sealed with alpha numeric wire seals;
4. For a random sample of 10% of the total parcels of silver, gold, platinum and palladium bars and coins listed in the Schedule, trace the Parcel ID of each parcel to the Parcel ID of each individually sealed tamper evident parcel bag of silver, gold, platinum and palladium bars and coins kept at the respective safe deposit boxes and cages tags;
5. For all nickel and cobalt drums and bags listed in the Schedule, trace the Parcel ID listed in the Schedule to the Parcel ID marked on each drum and/or bag; and
6. For a random sample of 200 parcels of silver, gold, platinum and palladium bars and coins and for a random sample of 10 parcels of nickel, cobalt drums and bags listed in the Schedule, weigh each selected sample and check that the weight is not less than the net weight as shown in the Schedule for each selected sample.

Our procedures in relation to nickel bags and cobalt drums were performed on 21 December 2021, whilst our procedures in relation to silver, gold, platinum and palladium bars and coins were performed on 31 December 2021. A stock roll-forward is performed to ensure that the count remains appropriate as of 31 December 2021.

We found no exceptions from performing the procedures mentioned in points 1 to 6 above.
